GUILLOTINE STYLE PIPE CUTTER

Looking for the best way to make quick, accurate cuts on medium and high density polyethylene pipe? Whether in the shop or at the job site, the **Wheeler-Rex Guillotine style pipe cutters** will definitely fit the bill.

Featuring legendary Wheeler-Rex quality, durability and reliability, the **Wheeler-Rex Guillotine style pipe cutters** include design features most requested by mechanical contractors...easy on-off pipe positioning, fast/accurate pipe cutting, rugged construction, Teflon® coated blade and much more.

Contact or visit your nearby authorized Wheeler-Rex distributor today to arrange for a demonstration of these outstanding poly pipe cutters.

Guillotine Style Pipe Cutter Features:

- Medium & high density PE pipe cutting capacity
- Teflon® coated cutter blade creates outstanding ease of cutting and corrosion protection
- Ratchet drive generates outstanding pipe cutting power and torque
- Side-swing opening design simplifies positioning at any point on pipe
- Wide saddle base provides sturdy, positive pipe support
- Stainless steel fasteners and hardware
- Structural members produced from aircraft-grade aluminum

1690 Designed to cut medium & high density polyethylene pipe up to 8" (225mm) OD with ease. Ratchet wrench and socket provided. 1" hex drive nut on top of feed screw allows unit to be run with a suitable power drive.

Shipping weight 40 lbs. (18 kg)

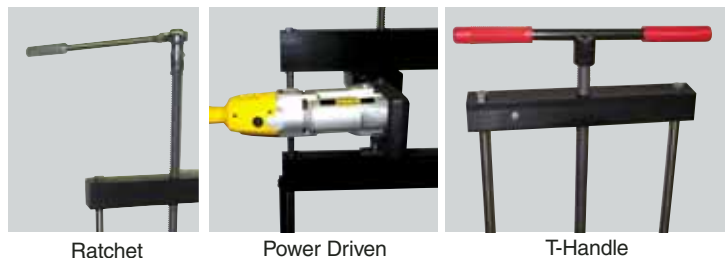

1890 A unique approach to cutting large diameter medium and high density polyethylene pipes. An electric or air drive delivers power to the blade through a right angle worm drive. (300-500 rpm maximum) Maximum cutting capacity of 13.2" (335mm)

Shipping Weight 73 lbs. (33 kg)
(Power supply not included with unit)

1891 Same capacity as 1890 except the unit has a conventional T-Handle manual drive. T-Handle can be removed to expose a 1" hex nut which can be driven with a ratchet or power drive.

Shipping Weight 73 lbs. (33 kg)
